

## ILCC 2021 KEYWORDS

The following words pertaining to lean construction are suggested as keywords for papers to be presented at the Indian Lean Construction Conference (ILCC) 2021. They are arranged under Generic Keywords vs. Themed Keywords particularly (but not exclusively) associated with each of the Conference's research themes.

Authors of papers for ILCC Conferences are requested to select at least three keywords from this list and can add their own keywords to a maximum of five in total.

### Generic Keywords

action research	flow	standardization sustainability
benefits realization	integration	transformation-flow-value
big room/obeya	kanban	value stream
collaboration/collaborative	Last Planner® System	variability
complex/complexity	lean construction	visual management
concurrent	process	waste
continuous improvement/kaizen	production pull	work flow
design science		

### Themed Keywords

#### ***contract, cost management***

alliancing  
cost-led procurement  
integrated form of agreement (IFOA)  
integrated project delivery (IPD)  
open book  
relational  
target cost(ing)  
transactional

#### ***people, culture, change***

action learning/research  
collaboration  
commitment  
language/linguistic action perspective  
mood  
promise, reliable promising  
trust

#### ***prefabrication, assembly, open building***

customization  
flexible manufacturing  
modular construction  
tolerance  
off-site construction

#### ***product development, design management***

Choosing by Advantages (CBA)  
set based design (SBD)  
Target Value Delivery (TVD)  
(formerly -Design)

#### ***production planning, control***

buffer/buffer management  
constraint analysis  
daily huddle  
hand-off  
lookahead planning  
make-ready planning  
phase scheduling  
pull planning  
time compression

#### ***production system design***

inventory control  
job-sequencing location-based management  
(LBM) logistics  
mistakeproofing/poka yoke  
takt planning (TP)  
work structuring  
work in progress/process (WIP)

#### ***safety, quality, health***

#### ***sustainability***

#### ***supply chain management (SCM)***

#### ***theory***
